

8.)

<b>Project Name</b>	Mobile App Penetration Testing
<b>Client Name</b>	One of the USA's Largest Technology Service Provider
<b>Industry</b>	Technology
<b>Challenges (Work)</b>	One of our enterprise clients contacted us to do pentesting of their iOS App. The goal is to identify and fix vulnerabilities.
<b>Type</b>	iOS App Pen-testing
<b>Project Duration</b>	4 Weeks
<b>Outcome</b>	They are required to do a security audit by using <b>SAST</b> (Static Mobile Application Testing) + <b>DAST</b> (Dynamic Application Security Testing). And our Team has proved to have strong Technical Abilities by completing this project. This is the most Advanced Project we've ever done!
